Around The School

For the first time TCD organised an open event for Languages only. It took place yesterday afternoon from 2 -4. 12 students from 5 & 6th years attended the event with Margaret Keating, Guidance Counsellor And Aileen Cusack, Spanish teacher.

Students found it very informative indeed and as it was well organised and paced they found it enjoyable too. One activity was an interactive experience of several languages: French, Spanish, German, Italian, Russian, Arabic. Students could choose 3 for a total of 20 minutes each.

However, the highlight for students was the excellent presentation given by Orlaith Tunney on the range of jobs and careers open to those with a language degree. I hope to get one or two of the slides and make posters of them for the guidance area. Many thanks to all students who attended.

Climate Quizmas

Climate Awareness is one of the main objectives of the Institute Greens Schools Committee. This is why, on the 17th of December, we have organised an environment themed Kahoot game to run from 4:30pm to 6:30pm in 2-3.

Students can enter in teams of three to win one of three amazing prizes provided by the IOE.

1st place : A one year subscription for each team member of Netflix or Spotify.

2nd place : A prized and coveted Institute Hoodie for each team member.

3rd place : An iconic Institute Keep Cup for each team member.

Test your knowledge on the present condition of the world's climate. Keep your eyes peeled for the clues we have hidden on our notice boards for useful hints. We wish all competitors the best of luck!

Health Tips from Brian Gregan

The school is dotted with Hand sanitizer's, ensure you use them to prevent picking up any colds, flus or nasty bugs that others may be carrying around. A simple thing to do, but it could save you precious school time that could be missed if you picked up a bug or, even worse, ruin your Christmas holidays.
